WHEN PRINTING THIS PAGE

IMPORTANT: When printing this page for accurate ring-size results, you must print at 100% size, and not have “Shrink oversized pages to fit paper size” or “Expand small pages to paper size” selected in the print dialog box.

Confirm print out is correct size by measuring the bar on the right to ensure it is exactly 2 inches

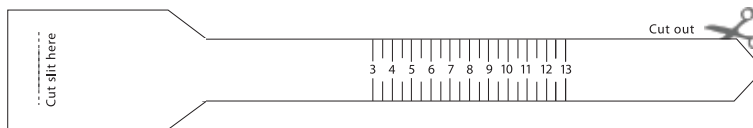

HELPFUL TIPS FOR THE MOST ACCURATE SIZING:

- Weather affects finger sizes. When it's hot, fingers are generally more swollen. When it's cold, or in an air-conditioned environment, fingers are thinner.
- Right and left hands can vary in size, so size the exact finger the ring will be worn on.
- If in doubt about the true ring size, visit a local jeweler and have them measure your finger with a finger-sizing ring. If the ring will be a surprise, order a ring that is as close as possible to the actual ring size and then have it sized to fit the wearer's finger.
- Note that eternity rings (diamonds in a complete circle) cannot be sized after-the-fact and have to be ordered in the exact size to fit the finger.

OPTION 1: MEASURE YOUR FINGER WITH THIS PAPER SIZER

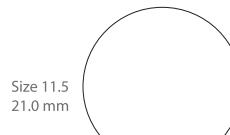

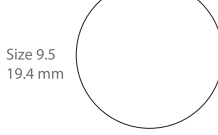

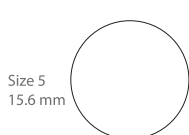

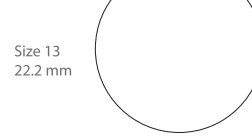

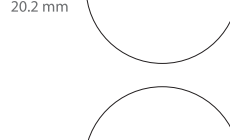

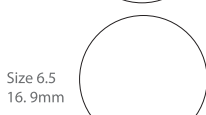

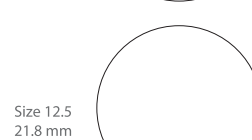

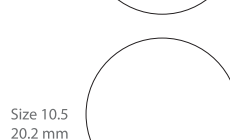

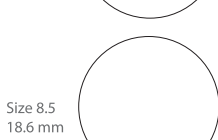

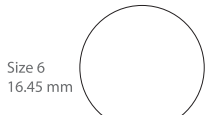

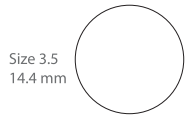

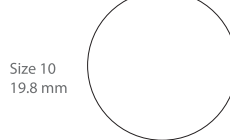

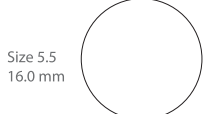

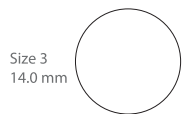

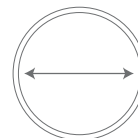

1. Carefully cut out sizer. Make a small slit at the left end of the sizer.
2. Place ring sizer comfortably around finger by slipping pointed end through the slit, numbers facing out.
3. **Secure the ring sizer by pulling the pointed end very tight around your finger to produce an accurate size.**
4. The number that lines up at the slit is the ring size of your finger.

OPTION 2: MEASURE A CURRENT RING

1. Select a ring that fits the intended finger.
2. Place the ring over the circles below, matching the inside edge of the ring to the circle in the sizes below
3. If the ring falls between two of the sizes below, order the larger size

Diameter Of Ring
